

The figure consists of six word clouds arranged in a circular pattern, each representing a different stage of the research communication process. The word clouds are color-coded: blue for 'digital', green for 'research', yellow for 'communication', and red for 'data'. The word clouds show a progression from 'digital' and 'research' to 'communication' and 'data'.

- Top-left (Blue):** 'digital', 'research', 'communication', 'data', 'open-access', 'elucidate', 'resources', 'learning', 'marketing', 'information', 'open-access', 'data', 'elucidate', 'resources', 'communication', 'learning'.
- Top-right (Green):** 'research', 'communication', 'data', 'open-access', 'elucidate', 'resources', 'learning', 'marketing', 'information', 'open-access', 'data', 'elucidate', 'resources', 'communication', 'learning'.
- Middle-left (Yellow):** 'communication', 'data', 'open-access', 'elucidate', 'resources', 'learning', 'marketing', 'information', 'open-access', 'data', 'elucidate', 'resources', 'communication', 'learning'.
- Middle-right (Red):** 'data', 'open-access', 'elucidate', 'resources', 'learning', 'marketing', 'information', 'open-access', 'data', 'elucidate', 'resources', 'communication', 'learning'.
- Bottom-left (Blue):** 'digital', 'research', 'communication', 'data', 'open-access', 'elucidate', 'resources', 'learning', 'marketing', 'information', 'open-access', 'data', 'elucidate', 'resources', 'communication', 'learning'.
- Bottom-right (Green):** 'research', 'communication', 'data', 'open-access', 'elucidate', 'resources', 'learning', 'marketing', 'information', 'open-access', 'data', 'elucidate', 'resources', 'communication', 'learning'.

We showcase and celebrate digital knowledge and expertise, championing innovation in and the effective exploitation of e-information resources, tools, techniques and technologies in all sectors of the library, information and knowledge profession.

Our overall aims are to:

- Stimulate communication and the exchange of knowledge about digital information
- Disseminate high quality advice and information about e-industry news and developments
- Raise awareness of existing and arising technologies that retrieve, manage and process digital information
- Support professional development by delivering a high-quality portfolio of practical, affordable courses and seminars
- Encourage innovation in digital information retrieval, management and processing
- Support the information profession through a range of international awards and bursaries

UKeiG's core specialities

- Artificial Intelligence
- Digital literacy
- Effective information retrieval and search technologies
- Enterprise search
- Social media
- Data curation and management, research support
- Scholarly communication and open access publishing

Professional Development Courses

Our high profile online courses attract hundreds of delegates every year and are reviewed regularly to reflect technological change and to anticipate emerging skills requirements. Current courses include AI, natural language processing, search usability, research data management and data visualisation.

Diversity

Our membership includes information professionals at all levels of the UK workforce involving the creation, delivery and exploitation of digital information, search technologies, discovery tools and information retrieval, scholarly communication, training and service delivery.

The UKeiG demographic is cross-sectoral and comprises the private, commercial and public sectors, embracing schools, further and higher education, the NHS, healthcare and pharmaceutical industries, science, social science, law, finance, arts, humanities, public libraries, archives and museums.

CILIP members receive discounts on all courses. If you're a CILIP member but haven't yet joined the UKeiG, you can update your preferences on the CILIP website.
